Re: **Notice of Bridge Closure Date**
Dean Bridge – Columbia Co. Rte. 21 over tributary to Roeliff Jansen Kill – Hillsdale

Date: May 24, 2016

As a follow up to our May 3, 2016 memo notifying you of the tentative construction schedule for the 2016 replacement of Dean Bridge on Co. Rte. 21 in Hillsdale, the construction work for this bridge project will begin, and **the bridge will be closed to all traffic on Wednesday June 8, 2016** by the County's bridge contractor – Wm. J. Keller & Sons Construction Corp. of Castleton, NY. Columbia Co. Rte. 21 will be closed at the bridge site to all traffic on June 8, 2016 and the temporary off-site detour will be available for use that day.

The current construction schedule submitted by our contractor indicates that this bridge replacement work will take approximately 4-5 months to complete. As a reminder, the temporary off-site detour that will be signed/posted by the contractor and utilized by all local traffic during the duration of this bridge replacement work will traverse Columbia Co. Rte. 21, NYS Rte. 22, NYS Rte. 203 and Columbia Co. Rte. 7.
